

## 2022 AFIA Summer Experience

### *Course Descriptions*

#### *“Transformers”*

##### **Kitchen Kiddos**

*Instructor: Zoe Luca*

**Description:** This summer our scholars will be cooking up a storm! They will be cooking tasty desserts, pizza, and more.

##### **Let the Games Begin**

*Instructor: Christopher Bryant*

**Description:** Student will understand the importance of community by participating in a variety of games and developing a new game to share with each other. We will have a blast while we try new and old games all while growing stronger together as a community.

##### **Mad Scientists**

*Instructor: Chelsea Boyd*

**Description:** This summer we will experiment with new things to expand our knowledge of science! This will open scholars' eyes to wanting to explore new things!

##### **Manga Book Club**

*Instructor: Abby Grajeda*

**Description:** We will be reading Manga and watching anime episodes to compare. We will also have group conversations about the plot and characters.

##### **Soul Shine**

*Instructor: Ali Dempster*

**Description:** This class will consist of multiple different activities that will focus on self-care and self-growth. The goal is to teach students healthy mechanisms to destress, unwind, and find fun hobbies to do in their free time.

##### **Transformational Strength!**

*Instructor: Michael Szabo*

**Description:** Come learn a variety of workouts you can do at home. We'll even learn how to build various pieces of equipment using basic supplies you can get from stores like Home Depot and more. Come transform your strength!

##### **WILD about learning!**

*Instructor: Lauren Vaught*

**Description:** We will learn all about ocean animals, bugs/insects, reptiles/amphibians, and mammals. Each week we will connect our math, reading, alphabet, and art lessons to the animal study of the week!
